Spokane

1992 -1997

Apprenticeship

Trained under Chester Fields learning composition, form, measurements, and gesture

SKILLS

Design: Composition, gesture, proportion, silhouette, balance, accuracy, measurements, iconic works

Project Management: Managed over a dozen contractors - delivery on time & within budget.

Network: World class network of state-of-the-art contractors & methods to ensure the highest production quality available.

QUALITY

A CLASS

Fields' digital masters are taken to A Class surface quality before production, ensuring near perfect reflections in the master CAD.

MASTER

Rapid-prototyping and CNC, combined with hundreds of hours of finish work, ensure the A Class surface quality comes through in the master.

MATERIALS

Fields' final sculptures are executed in various materials such as stainless steel, bronze, aluminum, carbon fiber and various composites.
